ACADA TRACKER™ VERSION 1.0

INTRODUCTION:

Acada Tracker™ is a students' records and grading software for Primary and Secondary institutions. Acada Tracker takes away laborious tasks faced by school administrators and teachers generating, tracking and computing students' information.

With its user-friendly interfaces, a minimal knowledge of applications is what's required to take advantage of Acada Tracker's features.

With Acada Tracker a teacher's job ends at the point of entering students' scores into the system. Acada Tracker takes care of computing the scores and generating report sheets.

Selling Points:

- Result Processing (process 1,800 students results in 30minutes)
- Instant Report Sheets generation
- Automatic Time Table Preparation makes life easy
- Handles Fee Payment, Adjustment and Refund
- Tracking of Teacher Information
- Admissions: featuring student's record with picture
- Easy-to-use scoring interface
- Security integration restricting unwanted access
- Creation and printing of Certificates
- And a host of Reports

Work efficiently, allow Acada Tracker do the dirty work for you.

FEATURES

- ✓ **Student registration and Assignment to Classes**
Registration made easy. Capture pertinent information about new students once and for all, including student's passport photo which is displayed with the student's record at all times. Each student is automatically assigned an Identity Number. With the easy-to-use screens, students can be immediately assigned a class and subjects for the session or term.
- ✓ **Result Processing**
Acada Tracker would process 1,800 students in 30 minutes and report sheets obtained immediately. Do all of this at the click of a button, painlessly and easily. Result processing keeps track of any students that isn't processed with a reason why. Teachers or School Administrators can quickly look into a list of passing or failing students.
- ✓ **Time Table Preparation**
Use the Time Table wizard to generate your Time Table for your school. The wizard is designed with the intelligence to make a proposal of a Time Table to you, that you could save or modify as the case may be.
- ✓ **Scoring**
Never like before, teachers can utilize a user-friendly interface for entering student scores for subjects. See at a glance an entire class with all scores displayed for each student.
- ✓ **Teacher/Subject Allocation**
This interface enables School Administrators to assign subjects to teachers.
- ✓ **Student fee payment**
The Bursary department can effectively monitor school fees; make adjustments or refunds and track owing students. Other reports are available for tracking school fees.

REPORTS: *Acada Tracker* provides several reports for easy retrieval of information. The system provides extensibility which enables you create and customize your own reports.

The following reports can be viewed, as well as printed from the system:

- ✓ **Student Report Sheet**
Prints the student's report sheet for the Term or Session. This report is instantly obtained once all scores are in.
- ✓ **Student Personal Information**
Displays student's bio data and related information
- ✓ **Class List**
Gives a list of all registered students in a particular class.
- ✓ **Student Score Detail**
Gives a detailed breakdown of all the scores for a particular student. Could be viewed by term, session, subject or class.
- ✓ **Missing Score Report**
This report displays scores yet to be entered for a particular student.
- ✓ **Registration report**
Lists students registered for each class for the Term/Session.
- ✓ **Teachers List**
Gives a list of teachers and subjects they teach and additional responsibilities assigned to a teacher.
- ✓ **Fees Reports**
These reports enables you to track fee payment for students. You can view students owing fees as well as payment details.
- ✓ **Testimonial and Certificates**
You are able to print certificates or testimonials. This is customizable to a particular school.

ON-LINE HELP

The on-line help is an encyclopedia of all the features and functionality of the program. Teach yourself how to use *Acada Tracker* without help from anyone. This is available under the Help Menu.

SECURITY

Acada Tracker provides different user levels/permissions which makes it possible for one person to be able to work with school fees, for example, while another person cannot. The entire application has been broken down to different user levels that enables the School Administrator to apportion different rights and access to the system.

Permissions levels have been broken down into 4 levels. A user can be assigned any or all of the following permissions:

1. Add new records
2. Edit existing records
3. Delete records
4. View records

COSTS

Item	Cost (₦)	Terms
ACADA TRACKER (multiple or single-user)	98,000.00	<u>1 copy per site.</u> Training and Implementation costs not included.

TRAINING (optional)

Training is optional. Acada Tracker is designed with ease-of-use in mind. Training isn't necessary for a computer literate staff. On the other hand if training is requested a fee of N30,000.00 is charged.

ADDITIONAL TRAINING ON COMPUTER LITERACY (optional)

If required, MORDI SOFTWARE would train your staff on computer literacy for an additional charge of N5,000.00 per staff.

IMPLEMENTATION (optional)

CUSTOMER is expected to cover transportation and accommodation costs, should MORDI SOFTWARE be asked to travel to CUSTOMER's location to train and implement *Acada Tracker*.

MAINTENANCE AND SUPPORT

- Free phone support is provided (most problems can be handled on phone or through email).
- On-site support attracts a N10,000.00 show up fee. MORDI SOFTWARE would diagnose the problem. Should the solution cost more, the N10,000.00 would be deducted from the total final cost.
- CUSTOMER is expected to cover all transportation and accommodation costs.
